RE: ITB 7214-Land Fill

Dear Council Members:

Please be advised that Traffic Engineering & Street Light Engineering recommends awarding the contract for land fill services to the apparent low bidder - National Serv-All.

Both Street Light Engineering & Traffic Engineering require this service for the disposal of concrete foundations and earth spoil.

Sincerely,

Tom Manny,
Director of Traffic & Street Light Engineering

RE: ITB #7214 Landfill Services

The Fort Wayne Street Department uses solid waste landfill services for disposal of sweeper dirt and debris, for disposal of various materials from street repair projects and for disposal of trash and garbage collected throughout the year on various types of clean up projects. This department is responsible for most types of clean up jobs throughout the city, therefore, this contract is essential in maintaining services to the city of Fort Wayne.
